Best Accessory For Travel EDC 2019

BY CARRY HQ, JULY 15, 2019

CARRY AWARDS PROJECTS

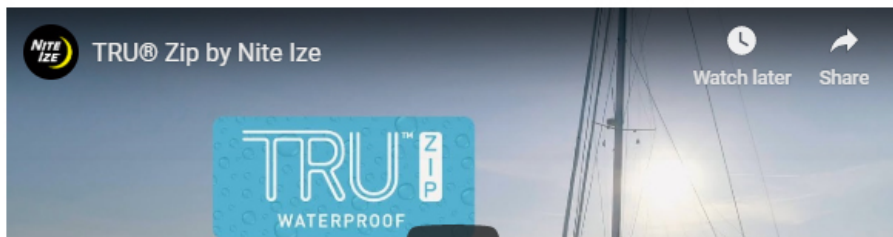

The Best Accessory is all about making carry better, whether it's keeping your EDC gear well protected against the elements, keeping all your essentials neat and tidy on the go, or helping make you travel as smooth as possible...

1st Place

Nite Ize RunOff Waterproof Collection

Carry innovation makes us stop and take note. And NiteIze have truly raised the bar with their RunOff collection and game-changing TRU Zip.

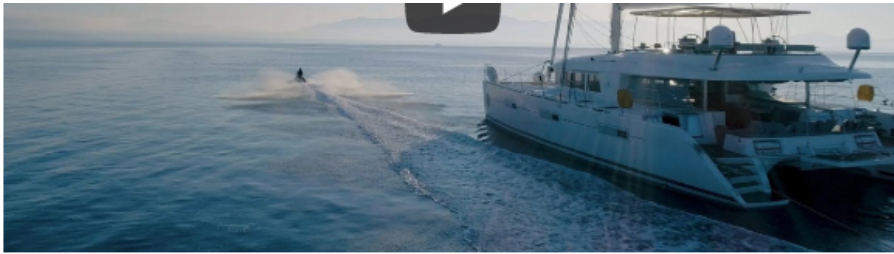

The TRU Zip is a completely waterproof zipper with a toothless design that's both silent to use and self-healing. The zip has an interlocking extruded ball-and-socket rail design and glides smoothly into an overmolded garage, providing a trusty IP67 waterproof and dustproof rating.

IN THIS ARTICLE

The zipper is utilized throughout the RunOff collection which includes a toiletry bag, wallet, two pouches and two packing cubes. Each piece has a tough TPU build with RF-welded seams, resulting in a completely submersible and dustproof construction. Perfect for keeping your gear organized and well protected from the elements across during travel or adventure. And with their translucent panels, it's easy to discern the contents at a glance. Win!

We salute Nitelze for creating a truly innovative zipper, deftly integrated into a well-considered collection, that simply and effectively makes our everyday and travel carry better. Superb job, Nitelze!
