

New “Twist” on Key Accessories from Nite Ize is a “Cinch”

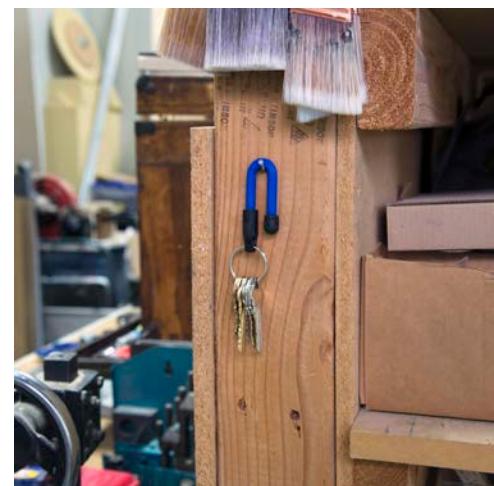

BOULDER, Colo., July, 26, 2017– With a reputation for providing innovative solutions to everyday problems, Nite Ize® reveals two new products that, while simple in concept, deliver a staggering number of uses and applications. Introducing the Cinch-A-Lot™ Stretch Strap and the Gear Tie® Key Ring.

The [Cinch-A-Lot Stretch Strap](#) is a stretchy, durable silicone strap that can be adjusted easily with a metal cinch slider to provide a convenient solution for carrying keys and other small items. Attached to the strap is a polycarbonate Nite Ize-branded S-Biner® MicroLock® and ¾" split ring. The S-Biner and split ring combination holds keys, while the silicone strap can be adjusted to fit around a wrist, water bottle, mobile phone, sunglasses, chapstick or other items – making it a “cinch” to hold everyday necessities while on-the-go. Available in blue and yellow for \$4.99.

The [Gear Tie Key Ring](#) is another option for on-the-go convenience. This item features a three inch Nite Ize Gear Tie with an integrated loop that attaches to a ¾" split ring. The ever-popular Gear Tie design makes this the ultimate wrappable, bendable, hangable key accessory. With a rubber exterior, the Gear Tie serves as a tactile fob that is easy to feel and find in a backpack or purse as well as easy to grip and attach to nearly anything. With the flexible wire inside, this unique Gear Tie Key Ring can also be bent like a hook to hang or wrapped around something. Available in black, neon yellow and blue for \$3.99.

“The Gear Tie Key Ring is an interesting twist on a traditional key accessory,” [Nite Ize Founder and CEO Rick Case](#) said. “It’s a versatile solution to managing keys and other small items – it’s very easy to use and extremely convenient.”
