THE NEW ESSENTIALS

▲ **PROBLEM NO. 39**

**Bungee cords** are often more hassle than help

**SOLUTION:** The **Gear Tie** is an epiphany brought to life — a heavy-duty twist tie, available in a variety of sizes, including an extra-large version that's 32 inches long. It's exactly what you need next time you have to bind an extension cord, create a temporary hook to hang wet gear, or close up a huge bag of bread. [**\$8** for two; [nitize.com](http://nitize.com)]
