Nite Ize Expands Radiant Light Series with New Rechargeable Options
Innovative Chip-On-Board Technology Casts Even Field of Light and Reduces Shadows

BOULDER, Colo. - January 7, 2020 – Nite Ize®, a leading manufacturer of innovative solution-based products today unveiled two new task lighting options, both with micro USB rechargeable capability—the **Radiant® 170 Rechargeable Headlamp** and the **Radiant® 170 Rechargeable Clip Light**. Both will be available at retail in early Spring 2020.

Thirty years ago, CEO & founder Rick Case designed the first headband-mounted flashlight holder. That initial foray by Case was the foundation for the brand’s legacy and evolution of task lighting, paving the way to high-performance headlamps and handheld lighting. The newest Radiant 170 Rechargeable Clip Light and Radiant 170 Rechargeable Headlamp are the next step in that journey.

“In response to consumer demand, we have developed lighting solutions for everyone from the daily user to the working professional,” said Nite Ize CEO and founder Rick Case. “The new Radiant Clip Light and Headlamp use chip-on-board technology, which casts an even field of light that reduces shadows and increases visibility. Our collection of task lighting is designed to serve the full scope of needs, whether that means barbecuing on the grill, setting up the tent or working on house projects.”

Radiant 170 Recharge. Clip Light

- **[Radiant 170 Rechargeable Clip Light](#)**: This rechargeable, compact clip light easily attaches to hat brims, backpack straps and clothing, featuring an adjustable tilting body and four lighting modes. Gear can be instantly transformed into 170 lumens of bright white flood light with a simple clip. The durable Clip Light is dual-color (white and red), water-resistant (IPX4) and impact-resistant up to one meter. MSRP \$24.99
- **[Radiant 170 Rechargeable Headlamp](#)**: Featuring an adjustable tilt up to 180° and a detachable body that converts to a handheld light, the Radiant® 170 Rechargeable Headlamp is a dual-color (white and red) headlamp that delivers 170 lumens of bright white flood light. The headlamp is water-resistant (IPX4) and impact-resistant up to one meter. Available in Blue, Coyote, and Black. MSRP \$24.99
