Nite Ize Expands Radiant Rechargeable Lantern Line at 2019 Outdoor Retailer Summer Market

Radiant 314 Rechargeable and Radiant Rechargeable Micro Lantern with Disc-O Select Showcase Functionality, Convenience and Environmentally Smart Solutions

BOULDER, Colo. (June 18, 2019) – [Nite Ize](#)[®], a leading designer and manufacturer of innovative solution-based products, is expanding its line of rechargeable lanterns with the introduction of the **Radiant[®] 314 Rechargeable Lantern** (MSRP \$44.99) and **Radiant Rechargeable Micro Lantern with Disc-O Select[™]** (MSRP \$19.99). Debuting at booth #42070-UL at the Outdoor Retailer Show, these lanterns have enhanced functionality and convenience with environmentally-smart technology for outdoor pursuits, home preparedness and daily life activities.

“Consumers are demanding illumination solutions that are easy to use with minimal impact on the environment,” said Rick Case, founder and CEO at Nite Ize. “Our design team worked hard to engineer products that incorporate the highest level of performance with solutions that have a minimal impact on the environment – in this case, rechargeable capabilities – giving consumers and retailers more choices.”

The [Radiant 314 Rechargeable Lantern](#) is a powerful 314 lumen lantern with a built-in USB power bank to recharge small devices. A durable, push button makes it simple to cycle through four LED modes (white light in high, medium, or low and warm, night-vision preserving amber mode). This lantern also includes a lockout mode to prevent accidental activation and battery drainage for dependable illumination that lasts up to 96 hours. With an integrated clip, the Radiant 314 is easy to hang, making it ideal for backyards and campsites, as well as home emergency preparation during stormy seasons.

The [Radiant Rechargeable Micro Lantern](#) features color-changing Disc-O mode that can also be set to any one of four colors (red, green, blue, or white). With an LED body that swivels 360 degrees, this micro lantern provides convenient, hands-free illumination at any angle. Built to last, this compact lantern features a built-in clip, water-resistant body, and the convenience of rechargeability with a runtime that lasts up to 10 hours. The Radiant Micro Lantern adds fun and functional lighting to out-of-the-way spaces, tents, or kid’s bedside tables.

About Nite Ize

Founded in 1989 and headquartered in Boulder, Colorado, Nite Ize designs, manufactures and globally distributes innovative, inventor-driven products that creatively solve everyday challenges. Recognized as the creator of the first universal flashlight headband-mount and the leading hands-free mobile mounting system (Steelie[®]), Nite Ize today catalogs more than 500 products across various channels including: Mobile, Hardware, LED Lights + Accessories, Bike + Fitness, Pet, Games + Fun and Travel. Led by original founder Rick Case, Nite Ize team members are passionate about their products, customers, partners and the

environment in which they live. In 2019, the company celebrates its 30th anniversary. For more information, visit Nitelze.com.
