Best Outdoor Presents for 2019 – Toys That Say “Go Out and Play”

SHARE THIS POST

Our guide to the best outdoor presents to keep your kids busy this summer

When you can officially check the 10-day weather forecast and there are NO CLOUDS in sight, you know it's time to retreat from the Netflix cave and emerge into the sunshine. You may blink into the light and find that during the winter, your toys from last spring have rusted, grown moss, collected dust, outlasted their utility or otherwise been transformed into an undesirable state for playing. That's why we've scoured the earth for the best outdoor presents that get your kids out and playing.

Out with the old, in with the new. Spring is all about resurgence and rejuvenation, right? Kids need a REASON to go outside nowadays. Let Wicked Uncle help you make it a compelling one! Take a look at our best outdoor presents for 2019:

7

Flashflight Flying Frisbee

\$24.99

LEARN MORE

Frisbee is a time-honored American classic – it's about time it got jazzed up with blinking lights! The fiber-optic design brings the LED light all the way to the edges, so the whole disc is illuminated for night time play, and the durable material allows the frisbee to fly longer and straighter, lit up for 20 whole hours. Say goodbye to slicing your palms on rough edges, too – this frisbee is basically the whole package. Ideal for kids five and up.
